

January 31, 2012

Hon. Shoshana M. Grove
Secretary
Postal Regulatory Commission
901 New York Avenue NW, Suite 200
Washington, DC 20268-0001

Dear Ms. Grove:

This transmits the enclosed copy of the Postal Service's progress report regarding the participation rates, compliance, and data yield of bulk First-Class Mail and Standard Mail customers using Full-Service Intelligent Mail. This responds to the requirement in the Commission's FY2010 Annual Compliance Determination Report that the Postal Service furnish monthly reports of such information.

Thank you for your consideration of this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Calamoneri", with a long horizontal flourish extending to the right.

Kevin A. Calamoneri

Enclosure

**Monthly Progress Report on Full-Service Intelligent Mail Participation and
Compliance by Commercial First-Class Mail and Standard Mail Customers
(January 31, 2011)**

The Postal Service previously updated the Commission on the progress of Full-Service Intelligent Mail participation and certification on December 30, 2011.

Between October 1 and December 31, the Postal Service measured over 3.4 billion First-Class Mail items from 606 active Full Service Intelligent Mail customers. Measured First-Class Mail items with an overnight service standard originated in 66 districts, those with a two-day service standard originated in 62 districts and those with a three-to-five-day service standard originated in 62 districts. For Standard Mail, there were nearly 3 billion items for October 1 to December 31 with origin data from all 67 districts for Destination Entry letters and flats, 64 districts for End-to-End letters, and 56 districts for End-to-End Flats. There were nearly 200 million pieces measured for Periodicals delivered between October 1 and December 31 and there were pieces originating from all districts. For Package Services Bound Printed Matter Flats, there were over 2.8 million pieces measured with origin data from 64 districts for pieces delivered between October 1 and December 31.

Between January 1 and January 13, the Postal Service measured over 511 million First-Class Mail items from 578 active Full Service Intelligent Mail customers. Measured First-Class Mail items with an overnight service standard originated in 65 districts, those with a two-day service standard originated in 61 districts, and those with a three-to-five-day service standard originated in 59 districts. For Standard Mail, there were nearly 431 million items for January 1 and January 13 with origin data from 66 districts for Destination Entry letters and flats, 54 districts for End-to-End letters, and 40 districts for End-to-End Flats. There were over 30 million pieces measured for Periodicals delivered between January 1 and January 13, and there were pieces originating from 65 districts. For Package Services Bound Printed Matter Flats, there were 15 thousand pieces measured with origin data from 17 districts for pieces delivered between January 1 and January 13.
